## Experience & Projects

### Club Officer

👥 Computer Science Club

📍 Seattle Central Community College

📅 Mar. 2022 – Mar. 2023

- Promoted the club at events to recruit new members
- Introduced and oriented new members, such as by inviting them to our slack channel and showing them how to use it.
- Proposed, organized, and executed club projects, giving all club members a space where they could be both creative and productive

### LLM Software Engineer

👥 UWB Hacks AI

📍 University of Washington Bothell

📅 Apr. 2024

- Designed, implemented, and presented an idea on a short timescale (72 hrs.)
- Communicated in a team with varied experience levels, clarifying work that needed to be done and how
- Created a UI mockup with enough clarity to be implemented with little intervention
- Implemented the code that communicated between the client and llama.cpp server

### Game Utility Developer

👥 Friends' Discord Server

📍 Home

📅 Jul. 2022; Jun-Aug. 2024

- Created a discord bot that would suggest a game to play, taking into account preferences of people in voice chat
- Took in user feedback on the bot to improve its usability
- Created a UI to allow trusted friends to start & stop game servers without my manual intervention
- Secured game server(s) with Docker and firewall rules via Nftables

### Intern @ Wyre

👥 Wyre

📍 Glasgow (WFH)

📅 Jun-Sept 2025

- Designed and prototyped a tool for the marketing team to edit links
- Outlined specific software requirements based on discussions with the marketing team
- Created a PostgreSQL database, ASP.NET backend, and Angular v20 frontend
- Quickly responded and engaged with code reviews from other developers

## Education

### Seattle Central College

🎓 Associates of Science

📅 Sept. 2021 – Mar. 2023

### University of Washington

🎓 Bachelors of Computer Science & Software Engineering

📅 Sept. 2023 – Dec. 2025

## Skills

Git, Networking, Docker, Sysadmin, Zig, Rust, C/C++, C#, TypeScript, .NET, Postgres, Angular
